

Annual Report

2020

President's Message

What a year! 2020 was like a Salvador Dali painting—surreal. When COVID-19 hit the global stage in early March, our business changed overnight. We instituted a policy of remote working that continues today.

In September, we experienced devastating windstorms and wildfires that impacted members in Utah, Washington, and Oregon. We responded quickly and began the process of rebuilding homes and peace of mind. Our affiliation with Wildfire Defense Systems (WDS), a private wildfire mitigation firm, protected many homes that might have otherwise been lost. We are proud to continue offering this service to our members.

Investment markets in 2020 were a roller coaster ride—varying from extreme highs to drastic lows. Our conservative investment philosophy minimized the impact of these swings.

Despite these events, we achieved strong financial results. We produced a net income and added to our retained earnings, or equity. We saw a reduction in claims and as a result we were able to provide COVID-19 credits to our members' premiums at their renewals that will continue into 2021. However, our premium growth suffered due to the economic impact of the pandemic and was less than 1%.

Our capital adequacy, which reflects our claims paying ability, remains strong. Our stellar financial ratings illustrate our balance sheet strength and our commitment to making sure we will be there for members when bad things happen.

We are proud of our many accomplishments over the last year.

Some of these include:

- Our associates pivoted to working remotely without any reduction in the quality of services provided to our members, and deserve immense credit for adapting so quickly.
- We provided financial support to local healthcare workers and food banks across our region, and we donated our Enumclaw parking lot for use as a COVID-19 testing site.
- *Seattle Business* magazine named us one of Washington's 100 Best Companies to Work For, for the ninth straight year.
- We began providing coverage in Wyoming, our seventh state.

As we enter our 124th year of operations, we continue to improve our services with a blend of respect for our past legacy while embracing the future in a rapidly changing world. What hasn't changed are our core values that we live every day. We are:

Ethical: We do what's right.

Responsive: Speed and competency build trust.

Personal: Positive and memorable customer service begins with a personal touch.

Efficient: We continually improve what we do every day.

Thank you for being a member as we work to build a company that thrives well beyond our lifetimes. Best wishes for a safe and prosperous 2021.

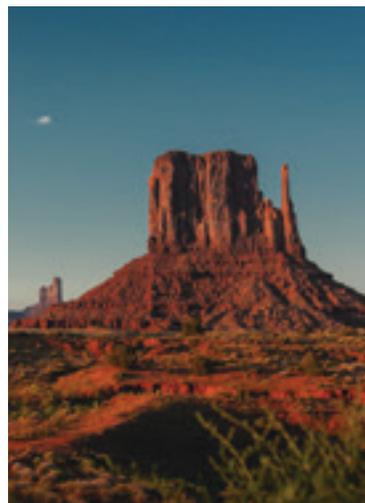

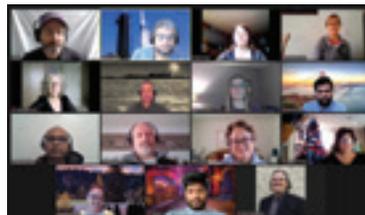

Eric Nelson, CPCU, ARP
President and CEO

Resilience in Action

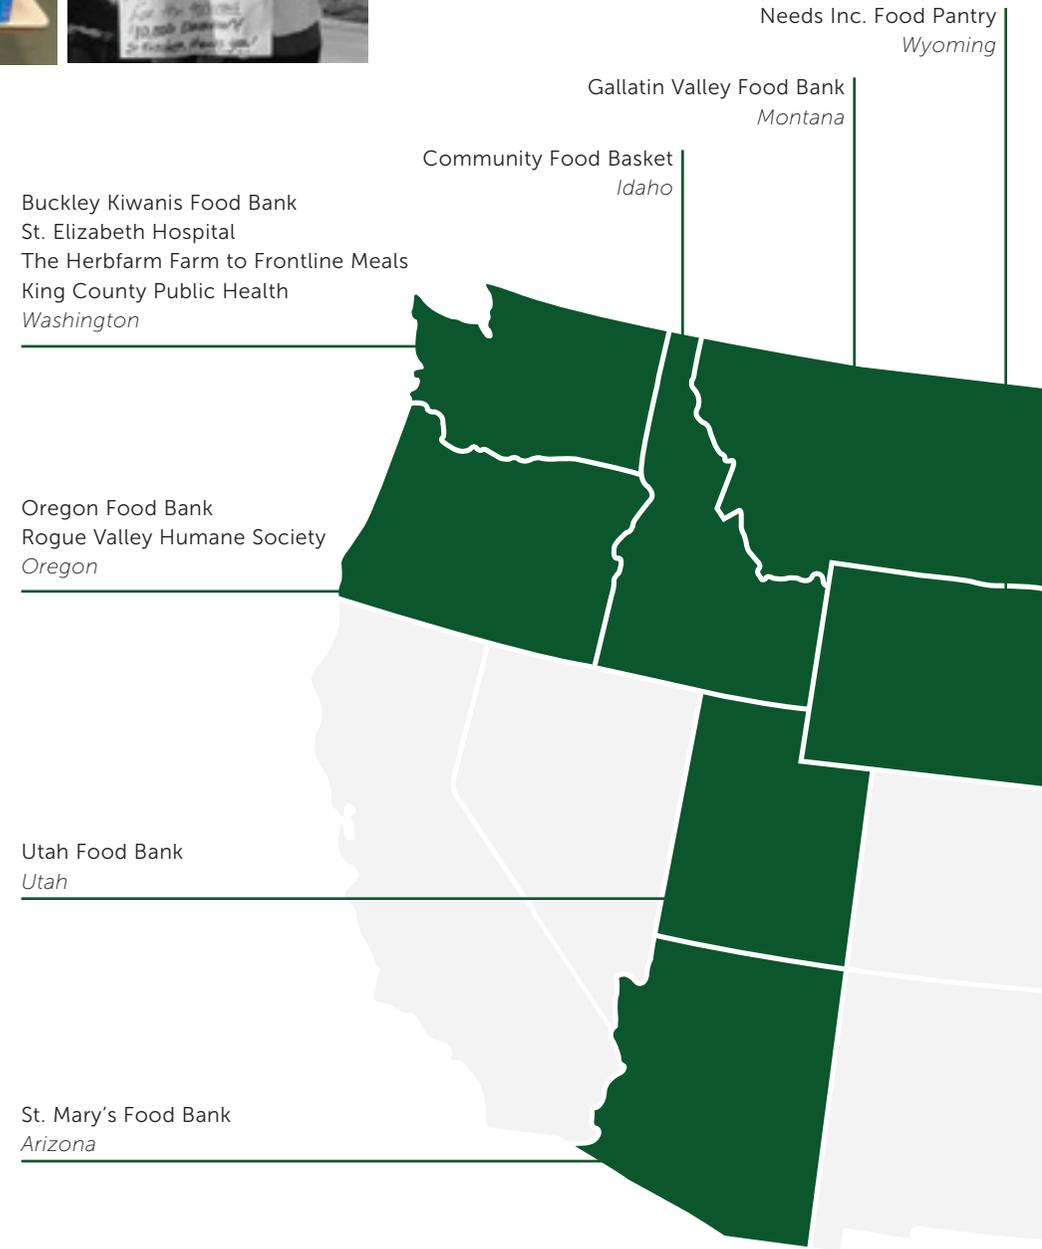

The past year confronted us with a series of unique challenges. We handled them the way we always have—by working together and looking out for one another.

For us that has meant actively participating in the communities we serve, standing alongside our members. Being prepared, so unexpected twists and turns have less of an impact. And keeping our mutual company measurably strong, so we're able to support our members when they need it most. Through a year of storms, fires, economic adversity, and pandemic uncertainty, we were there—with unwavering strength and resilience.

Our Local Presence

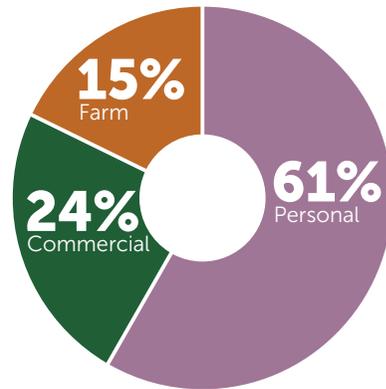

Here are a few of the many places we actively supported in our local communities this year.

2020 Financials

Premiums Written by Line of Business

Premiums were spread by risk type between personal (61%), commercial (24%), and farm (15%). Total policy count was 200,484.

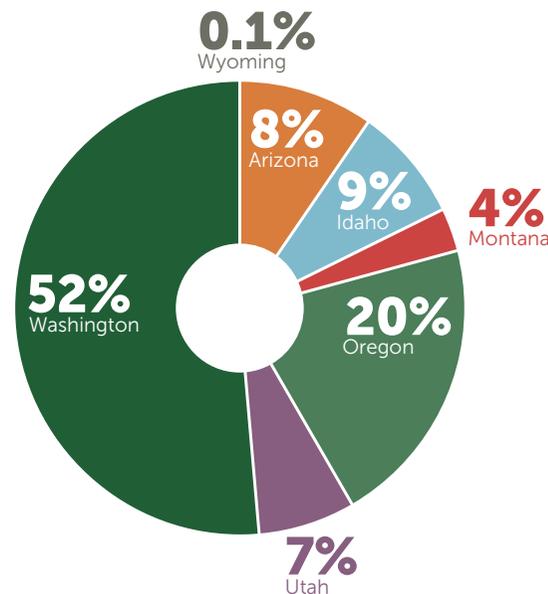

Premiums Written by Year

Due to the pandemic, premium writing was static for the year and totaled \$460.6 million. We also provided a COVID-19 Recovery Credit to offset the impacts of the pandemic.

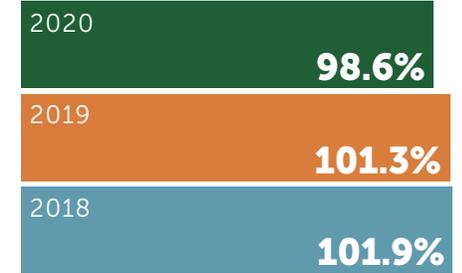

Premiums Written by State

We began writing policies in Wyoming, our seventh state. Expanding our geographic footprint allows us to weather risks while remaining nimble to serve members.

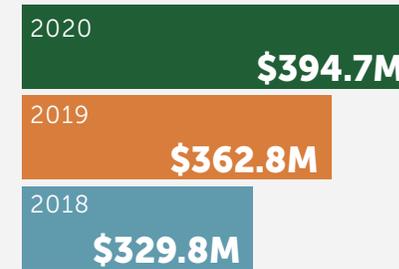

Combined Ratio

This is the sum of our loss ratio and expense ratio, and measures our underwriting profitability. Results under 100% indicate an underwriting profit. We posted a 98.6% combined ratio for 2020 despite the year's many challenges.

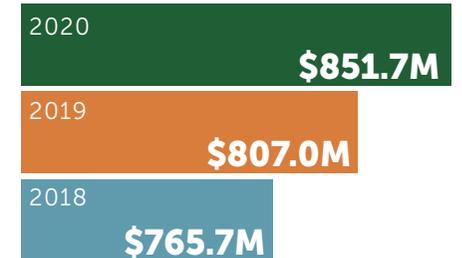

Equity

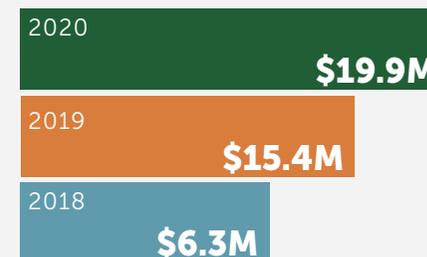

Equity represents retained earnings, and measures our financial strength and capacity to write new business. Our equity grew by 8.8% during 2020, ending at a robust \$394.7 million.

Total Assets

This is a measure of our resources that provide future benefits. Total assets grew by 5.5% and ended the year at \$851.7 million. Our long-term, conservative investment approach allowed us to weather volatile markets.

Net Income

This is a measure of our overall profitability after claims handling, operations, investment returns, and federal income. Net income rose to \$19.9 million for 2020 driven by positive underwriting results and contributed to equity growth.
